

# Internet Safety

## Be Safe

## Be Secure

**S**

**Stay safe** - never give out your personal information on line.

**E**

Don't open **e-mails** texts or images from people you don't know and trust. They can cause damage to your PC and may contain inappropriate messages.

**C**

Never arrange to **contact** anyone you have met on line - this can be very dangerous. Talk to a responsible adult and only meet someone with a responsible adult present.

**U**

Always **understand** that people you talk to on line may not be the person they are describing and that some online information may not be reliable.

**R**

**Report** any concerns you have to a tutor or a responsible adult

**E**

**Expose** anyone who attempts to make you do something you are not comfortable with.
